

# Pfizer Drops Half of Enrollment in Lyme Disease Trial Due to Sites' GCP Infractions<sup>1</sup>

How would losing 20% of research subjects because of GCP violations affect your study; your company; your career?

Introducing MANA RBM's new service:

## INDEPENDENT AND OBJECTIVE STUDY HEALTH CHECK (SHC)

Our SHC service ensures you KNOW within weeks the critical errors affecting your trial's viability. SHC works at all phases in your trial's life cycle and with little effort required from you or your team,

**STUDY HEALTH CHECK** delivers:

- Identification of a critical errors in each of three areas:
  - Primary endpoint
  - Safety
  - Investigational Product
- Evaluation of the completeness of your CRO's error identification process
- A debrief meeting to review the deviations and trends
- Peace of mind or a remediation action plan

Start with a simple one page consulting contract. To get started, contact me directly.
